

**KERALA STATE ELECTRICITY REGULATORY COMMISSION**  
**THIRUVANANTHAPURAM**

**SCHEDULE OF TARIFF AND TERMS AND CONDITIONS**  
**FOR RETAIL SUPPLY BY KSEB WITH EFFECT FROM 01-12-2007**

Unless the context otherwise requires words and expressions used in this schedule and defined in the Electricity Act, 2003 or the Regulations specified by the Kerala State Electricity Regulatory Commission and the Terms and Conditions of Supply approved by the Commission shall have the meaning respectively assigned to them in the Acts or Regulations mentioned above.

The tariff mentioned in this schedule shall apply to Consumers to whom the Kerala State Electricity Board has undertaken or undertakes to supply electricity not withstanding anything to the contrary contained in any agreement entered into with any consumer earlier by Board/Government or any of the Tariff Regulations or rules and/or orders previously issued.

The rates specified in this schedule are exclusive of Electricity Duty and/or surcharge and/or any other cesses, taxes, minimum fees, duties and other impositions existing or that may be levied or imposed in future by the Government or the Commission, which are payable in addition to the charges as per the tariff mentioned in this Schedule.

**PART A - EHT AND HT TARIFF**

**General conditions for HT and EHT tariff**

1. For the purpose of conversion from kVA to kW or vice versa, an average power factor of 0.9 shall be taken.
2. Billing demand shall be the recorded maximum demand for the month in kVA or 75% of the Contract demand (as per the agreement) whichever is higher.
3. When the actual maximum demand in a month exceeds the Contract demand as per the agreement the excess demand shall be charged at a rate of 150 percent of the demand charges applicable.
4. *Power intensive industries:* The industries which manufacture any one of the following products or using induction arc furnaces or industries engaged in any one or more of the following processes are classified as power intensive industries.
  - a. Calcium carbide
  - b. Caustic Soda
  - c. Charge Chrome
  - d. Ferro Chrome

- e. Ferro manganese
- f. Ferro Silicon
- g. Ferro Alloys
- h. Potassium Chlorate
- i. Silicon Carbide
- j. Sodium Chlorate
- k. Sodium Metal
- l. Chlorates/Per Chlorates
- m. Melting of metals and Alloys
- n. Industries engaged in electro-chemical/electro-thermal processes
- o. Industries using induction arc furnace
- p. In other cases, where the cost of power is more than 25% of the cost of the product manufactured.

*Note:* If the industries are having heating load, and if the connected load of the heating load does not exceed 20% of their total connected load, such industries shall be classified as Non-Power intensive industries.

5. Power Intensive industries which are allocated power on or after 17-12-96 shall be shall be charged 100% extra over the normal rates for the energy consumed during peak time. This will apply to additional power required by the existing Power Intensive industries
6. All HT/EHT consumers shall install Time of Day (ToD) meters at their cost. They shall undertake maintenance and replacement of the defective meters, CT/PT, and other equipments owned by them at their cost. If they fail to do so within two months from the date of intimation they will be charged 50% extra over the prevailing rates applicable to them for both Demand and Energy.
8. All EHT consumers (except Railway Traction) and all HT/Deemed HT consumers (except Cinema theatres, drinking water supply pumping stations of Kerala Water Authority, Corporations, Municipalities and Panchyats) shall be billed on differential pricing system as per the formula indicated in the Annexure A to this Schedule.
9. The Monthly minimum payable shall be the minimum guarantee amount as per minimum guarantee agreement, if any, or the billing demand as per condition 2 above, whichever is higher. This applies even during the period of disconnection of power supply.
10. In the case of factory lighting and colony supply of EHT/ HT (Industrial) consumers, the applicable tariff shall be subject to the following:
  - a. Factory lighting - When the total connected lighting load of the factory is less than or equal to 5% of the connected load for power, it can be

tapped off from the power mains without segregation. When the above lighting load exceeds this limit, the whole lighting load should be segregated and metered by a sub-meter and lighting consumption in excess over 10% of the bulk supply consumption for power shall be charged at 7 paise extra per kWh for EHT and 25 paise per kWh for HT consumers.

- b. Colony Supply: Colony supply when taken from the Consumer's EHT/HT supply shall be segregated and metered by means of a sub-meter and the consumption will be charged at 7 paise extra per kWh for EHT and 25 paise/kWh for HT consumers.
- c. If no segregation is made as specified in (a) or (b) above, the bill amount of the consumer shall be increased for demand and energy charges by 10% and 20% for EHT and HT consumers respectively.

11. Power factor incentives/penalties as per Annexure B shall be applicable to HT and EHT consumers.

### EHT TARIFF

This tariff shall be applicable to all Extra High Tension consumers. 110 kV tariff shall be applicable for Railway Traction but TOD Tariff is not applicable. The expression Extra High Tension (EHT) consumer means a consumer who is supplied with electrical energy at a voltage exceeding 33000 Volts under normal conditions subject however to the percentage variation indicated in the agreement with the Board or allowed under the Kerala Electricity Supply Code, 2005 specified by the Kerala State Electricity Regulatory Commission.

#### EHT Supply (66 kV or 110 kV)

Normal Rates			
Supply Voltage	Demand Charge (Rs./kVA of Billing Demand/ Month)	Energy Charge (Paise/kWh)	Energy Charge (applicable to Power Intensive industries which are allotted power on or after 17-12- 1996) (Paise/kWh)
110 kV	245	290	340
66 kV	260	290	340

## HT Tariff

This tariff shall be applicable to all High Tension consumers to whom the Board has undertaken or undertakes to supply energy. The expression High Tension (HT) consumer means a consumer who is supplied with electrical energy at a voltage of either 33,000 Volts, 22,000 Volts or 11,000 Volts under normal conditions, subject however to the percentage variation indicated in the agreement with the Board or allowed under the Kerala Electricity Supply Code, 2005 specified by the Kerala State Electricity Regulatory Commission.

### HIGH TENSION (HT - I) INDUSTRIAL

Tariff applicable to Printing Presses (including presses engaged in printing dailies), Plantations, granite crushing units, industrial consumers, dairy farms, hatcheries, software development units, all non-agricultural pumping, drinking water pumping for public by Kerala Water Authority, corporations, Municipalities and Panchayats

Normal Rates	
Demand Charge (Rs./kVA of Billing Demand/Month)	270
Energy Charge (Paise/kWh)	300
Energy Charge (applicable to Power Intensive industries which are allotted power on or after 17-12-1996) (Paise/kWh)	350

### HIGH TENSION (HT - II) NON-INDUSTRIAL / NON-COMMERCIAL

Tariff applicable to non-industrial, non-commercial consumers such as Public Offices run by Central/State Government, Local Bodies, Technical and Educational Institutions and Hostels run by or affiliated to Universities or Government Departments or Government Hospitals or Government Nursing Homes, Charitable Institutions and Colonies supplied with energy at HT and HT domestic.

Normal Rates	
Demand Charges (Rs./kVA of Billing Demand/Month)	300
Energy Charge (Paise/kWh)	300

In respect of offices of political parties approved by Election Commission of India the existing tariff shall apply.

Note: The HT Domestic connection shall be effected subject to the following conditions:

1. The connections provided shall be for the own domestic use of the consumer. He shall not install separate meters for different flats/rooms in his building/complex
2. he shall not rent out the rooms/flat/apartments and shall not resell the power supplied to the occupants inside or outside the premises to which HT connection is provided
3. If the apartment/flat/room is rented out or made use of for any other purpose he shall take individual LT connection at his cost. LT tariff shall apply in such cases. He shall maintain the transformer and allied equipments at his cost in such cases.

#### **HIGH TENSION (HT - III ) AGRICULTURE**

Tariff applicable to agricultural consumers for all cultivations including dewatering, lift irrigation, sericulture, poultry farms, silk worm breeding, livestock farms, piggery farms, and combination of dairy and livestock farms.

<b>Normal Rates</b>	
Demand Charges (Rs./kVA of Billing Demand/Month)	165
Energy Charge (Paise/kWh)	130

#### **HIGH TENSION (HT - IV ) COMMERCIAL**

Tariff applicable to airports, hotels/restaurants, lodges, hostels, guest/rest houses, travelers bungalows, commercial cold storage, freezing units, commercial establishments, business houses, film studios, cinema theatres, self financing educational institutions, hospitals other than government owned, private nursing homes, Seafood Processing Units, milk chilling plants, private scanning units, private X-ray units, private clinical laboratories, offices/ telephone exchanges of telecom companies, radio stations, television broadcasting companies, television channels, construction works.

Normal Rates	
Demand Charges (Rs./kVA of Billing Demand/Month)	350
Energy Charge (Paise/kWh)	370

#### HIGH TENSION (HT - V) SEASONAL CONSUMERS

1. HT Consumers with seasonal load shall register themselves with Board as seasonal consumers for the purpose for which electricity is used. He shall be billed under appropriate tariff for the period of use.
2. For registration as a seasonal consumer, the consumer should have a minimum of four working months per annum or he should guarantee a minimum equivalent thereto for the working season.
3. If the seasonal consumer uses his supply for different purpose during different seasons (periods) and if he does not register as a seasonal consumer, he shall be charged at the highest tariff applicable for the various operations for the whole year
4. If such a consumer registers with the Board as seasonal consumer and specifies the period during which the supply is used for different purposes, the tariff rates applicable to the different uses shall be charged for the entire period
5. The conditions for Lighting for seasonal industrial consumers shall be the same as applicable in the case of HT I.
6. When the registered seasonal consumer does not use supply for a few months outside the season (period) he should agree for disconnection without notice upon the expiry of the period and pay higher rates during the working seasons as below:
  - a. Demand charges shall be increased by  $5(12-N)\%$  where 'N' is the number of months during which the consumer register himself with the Board to utilize the service in the year
  - b. There will be no billing for the idling period
  - c. The service to the consumer will be disconnected without notice immediately on termination of the registered period unless the consumer asks for continuance of the service during the idle period for which also he will be charged at the same seasonal rate applicable for the original period.
  - d. Monthly minimum equivalent to demand charges for 75% of the contract demand increased as per (a) above shall be collected from the consumer in each working month.

## PART B - LOW TENSION ( LT ) TARIFF

The expression 'Low Tension Consumer' (LT) means a consumer who is supplied with electrical energy at low or medium voltage by the Board. The voltages however being subject to percentage variations allowed under Kerala Electricity Supply Code, 2005.

### General Conditions

1. The tariff minimum payable by all LT consumers other than LT-I and LT-VI (D) shall be the fixed charge of respective category.
2. All LT Industrial and LT Agricultural consumers are required to install static capacitors approved by ISI for power factor improvement, for their inductive load as recommended in the Annexure C attached and obtain the permission of the Licensee.
3. LT Industrial and Agricultural consumers who have not installed ISI approved capacitors of recommended value, the rate applicable shall be higher by 20% (both on fixed and energy charges) applicable to the respective categories.
4. For welding sets without ISI approved capacitors of recommended value the fixed charge and energy charge shall be higher by 30%.
5. In the event of static capacitor becoming faulty or unserviceable the consumer shall forthwith intimate the matter to the concerned Officer of the electrical section/major section and the consumer shall make immediate arrangements for repair.
6. If the capacitor is not put back into service duly repaired and to the satisfaction of the Board within one month, enhanced charges as per item 3 or 4 above shall be payable for the whole period during which the capacitor was faulty.
7. Consumers (other than LT-IV Industrial and LT-V Agriculture) who have segregated their power loads may install ISI approved static capacitors for power factor improvement as recommended in the Annexure C to this Schedule and obtain approval of the Board. In such cases they shall be eligible for a rebate of 5% on the energy charges only. The rebate shall be allowed for consumption from the billing month succeeding the month in which the approval has been obtained.
8. Tariff for lighting LT industrial premises: The lighting load and power load shall be segregated, and metered by separate meters. The lighting consumption in excess over 5% of the bulk energy consumption for power proper shall be charged at 50 paise per kWh extra over and above the specified rate. Where segregation is not done the entire charges (fixed and energy charges) shall be increased by 50%.

9. Power supply to common facilities such as water supply, common lighting, lifts etc., in the multi-stored building with non-domestic/commercial occupation only shall be charged under the appropriate LT-VI or LT-VII tariff. When there is a combination of occupation of different categories of consumers, common facilities shall be charged at the highest LT-VI or LT-VII tariff applicable among such categories.

## LOW TENSION - I (LT- I )

- (a) The tariff applicable to supply of electrical energy for Domestic use (single phase/ three phase).

Slab	Energy charges (Paise/kWh)
Up to 40 kWh	115
41 to 80 kWh	190
81 to 120 kWh	240
121 to 150 kWh	300
151 to 200 kWh	365
201 to 300 kWh	430
301 to 500 kWh	530
501 and above	545

The tariff minimum payable other than during the period of disconnection

Single phase - Rs. 30 per consumer per month

Three Phase - Rs. 170 per consumer per month

This is not applicable to non-paying group

The tariff minimum payable during the period of disconnection.

Single phase - Rs. 30 per consumer per month

Three Phase - Rs. 60 per consumer per month

### Note:

1. Power supplies to common facilities such as water supply, common lighting, lifts, etc. in multi-storied buildings mainly for domestic occupation shall be under the domestic tariff if the connected load other than domestic is less than 5% of the total load.

2. Electricity used for water supply projects for pumping water solely for domestic purpose coming under local self government and beneficiaries committees, schemes under Jalanidhi, Jaladhara, Swajaladhara, and similar water supply projects coming under water supply societies, drinking water supply schemes in SC/ST and laksham veedu settlement colonies and taken over and managed by three tier panchyaths, all social drinking water supply schemes which are established through MP/MLA fund/PPS/three tier panchyat fund, and Rajeev Gandhi Drinking water schemes managed by beneficiary groups where water is used only for domestic purpose, shall be charged under Domestic tariff. The method of billing for the schemes shall be:
    - a. the total group consumption shall be divided by number of beneficiary households to estimate the bill
    - b. the same shall be multiplied with number of beneficiary households to arrive at the total bill for the scheme.
  3. Domestic consumers shall be allowed to utilize electrical energy in some portion of their residence for their own use for purposes other than domestic as defined under LT-I when such connected load does not exceed 20% of the total connected load or 500 Watts in their premises. When connected load other than domestic use in such cases exceeds the above 20% or 500 W whichever is less, such loads shall be segregated and separate service connection obtained under appropriate tariff. When this is not done, the tariff applicable to the whole service shall be at the appropriate tariff applicable to the connected load used for purpose other than domestic, if such tariff is higher than the tariff for LT-I.
  4. Consumers provided with LT supply for domestic use where the connected load does not exceed 500 W are exempted from payment of monthly current charges if their average monthly consumption does not exceed 20 units. This exemption shall not be applicable to the domestic consumers who are liable to pay minimum guarantee amount and/or rental charges. If connected load exceeds 500 W and/or average monthly consumption exceeds 20 Units, the consumer shall pay for the entire consumption. The exemption from payment of electricity charges is not applicable to any other category of consumers. The above exemption is applicable only if the consumers satisfy all the above conditions.
- (b) Tariff applicable to Offices of political parties approved by Election Commission of India, Libraries and reading rooms other than Libraries and reading rooms of educational institutions, sports/arts clubs, sailing/swimming activities (with connected load not exceeding 2000 W).

Slab	Energy charges (Paise/kWh)
Up to 40 kWh	155
41 to 80 kWh	240
81 to 120 kWh	280
121 to 150 kWh	345
151 to 200 kWh	405
201 to 300 kWh	505
Above 300 kWh	630

The tariff minimum payable other than during the period of disconnection

Single phase - Rs. 40 per consumer per month

Three Phase - Rs. 205 per consumer per month

The tariff minimum payable during the period of disconnection.

Single phase - Rs. 40 per consumer per month

Three Phase - Rs. 80 per consumer per month

#### LOW TENSION - II (LT- II) COLONIES

Tariff applicable to colonies of HT and EHT consumers where resale of energy is not involved and where supply at a single point is given at LT by the Board for domestic use in staff quarters, street lighting and pumping water for domestic use, colonies of universities, State/Central Government Departments, Public Institutions like Companies/Boards/Corporations under State/Central Government, Hospitals therein, colonies of Railways, State/Central Government undertakings, Postal/ BSNL/ AIR/ Doordarshan and private colonies.

LT - II Colonies	
Fixed Charge (Rs./Month)	1990
Energy Charge (Paise/kWh)	565

Note: In Special cases where supply is given at more than one point each supply point shall be considered as separate consumer for the purpose of billing.

### LOW TENSION - III (LT- III) TEMPORARY CONNECTION

Tariff applicable for illumination, exhibition, festivals, public meeting and fairs (single or three phase)

LT - III Temporary connections	
Energy Charge (Paise/kWh)	1200
OR	
Daily minimum Rs.120 /kW or part thereof of connected load, whichever is higher	

Note: 40% concession in the rates shall be allowed if the connection is for

- (a) exhibitions conducted by Local bodies/Government educational institutions/recognized private educational institutions
- (b) festivals of public religious worship centers for illumination, public address system and security lighting.

### LOW TENSION - IV (LT- IV) - INDUSTRY

Tariff applicable for general purpose industrial loads (single or three phase) viz., grinding mills, flour mills, oil mills, rice mills, saw mills, ice factories, rubber smoke houses, prawn peeling units, floriculture activities, tyre vulcanizing/retreading units, workshops using power mainly for production and/or repair, pumping water for non-agricultural purpose, public water works, sewage pumping, power laundries, hatcheries, screen printing of glass ware or ceramic, printing presses, bakeries (where manufacturing process and sales are carried out in the same premises) diamond-cutting units, stone crushing units, book binding units with allied activities, garment making units, electric crematoria, pyrolators installed by local bodies, mushroom farms, shrimp farms, SSI units engaged in computerized colour photo printing, computer consultancy service units with SSI registration engaged in software services and data processing activities and desktop publishing, software units, audio/video cassette/CD manufacturing units, dairy farms, agricultural nurseries (without sale) and tissue culture units.

<b>LT - IV Industrial</b>	
Fixed Charge Rs. per kW or part thereof per Month	45
Energy Charge (Paise/kWh)	325

Note:

- a. Industries engaged in software development technology and tissue culture units need not segregate industrial load, lighting load and load for air conditioners. No Penalty shall be levied by the Board for non-segregation of the load by these units. However, such consumer shall install static capacitors having ISI certification to improve the power factor of the load of air conditioners if any.
- b. If ISI approved static capacitors are not installed by such consumers to compensate the inductive load of air conditioners, 25% extra shall be charged on the total fixed charge inclusive of entire connected load
- c. Software technology industries requiring new connection shall be provided connection only if they install ISI approved static capacitors to compensate the inductive load of air conditioners if any.
- d. The entire consumption and connected load of above consumers shall be charged at industrial tariff (LT IV).
- e. The dairy farms/milk chilling plant with or without chilling/freezing/cold storage activity shall be charged under industrial category provided the chilling/freezing/cold storage load is limited to 20% of the total connected load. If it exceeds 20%, LT VII (A) tariff shall be applicable.
- f. Workshops with Automobile service stations shall segregate the workshop load for availing the benefit of industrial tariff.

#### **LOW TENSION -V (LT- V) AGRICULTURE**

Tariff applicable to poultry farms, silk worm breeding units, agricultural consumers including dewatering and lift irrigation, livestock farms (minimum number of milch cattle shall be five) and combination of livestock and dairy farms, piggery farms (Minimum six breedable adult animals in the farm)

LT - V Agriculture	
Fixed Charge Rs. per kW or part thereof per Month	6
Energy Charge (Paise/kWh)	65

In all cases ISI approved capacitors of recommended value (See Annexure II) shall be installed for inductive load.

## LOW TENSION -VI ( LT- VI ) NON-DOMESTIC

### LT VI (A)

Tariff applicable to premises of religious worship, government or aided private educational institutions, libraries and reading rooms of educational institutions, convents, Government Hospitals, X-Ray units, laboratories and mortuaries attached to government hospitals, Private hospitals registered under Cultural, Scientific and Charitable Societies Act and exempted from payment of income tax.

LT - VI (A) Non-Domestic	
Fixed Charge Rs. per kW or part thereof per Month	40
Energy Charge (Paise/kWh)	Upto 500 kWh - 385 Above 500 kWh - 520

### LT- VI (B)

The tariff applicable to offices and institutions under State/Central Government, Corporations, Boards under State/Central Government/Local bodies, hostels of educational institutions (other than self financing educational institutions) affiliated to Universities or under the control of the director of technical/medical education/public instruction or such other offices of government or run by the government or state social welfare board, hostels run by institutions that are registered under cultural, scientific and charitable societies Act and exempted from payment of income tax, KHRWS pay wards and institutions of KHRWS, travelers bungalows, guest/rest houses under government, type writing institutes, private hospitals, private clinical laboratories, X-ray units, private mortuaries, private blood banks, private scanning centres, offices of advocates / chartered accountants/tax

consultants/ architects/social organizations, press clubs, museum/zoo, computer training institutes, offices of political parties not approved by the Election Commission of India and collection centres of 'FRIENDS' single window service centres under department of Information Technology and Police Clubs.

LT - VI (B) Non-Domestic	
Fixed Charge Rs. per kW or part thereof per Month	55
Energy Charge (Paise/kWh)	Upto 500 kWh - 450 Above 500 kWh - 590

The above tariff is also applicable to premises rented out for students who are paying guests subject to the following

- a. Board and lodging shall be on paying guest basis
- b. The students shall occupy the building along with the owners
- c. LTVI-B tariff shall be levied only for premises rented to students who are accommodated as paying guests.

#### LT- VI (C)

Tariff applicable to offices or institutions under Kerala Water Authority, KSRTC, Kerala water transport, Income tax/Central Excise, Customs, offices under motor vehicles department/ sales tax department/ excise department, offices of all other tax/revenue collecting departments under state/central government (other than local bodies), department of posts, light houses, pawn brokers, banks, railways (including railway stations) offices of Airport Authority of India (except airport) and any other LT categories not included in this schedule.

LT - VI (C) Non-Domestic	
Fixed Charge Rs. per kW or part thereof per Month	170
Energy Charge (Paise/kWh)	Upto 500 kWh - 675 Above 500 kWh - 840

#### LT- VI (D)

Tariff applicable to orphanages, schools and hostels of mentally retarded students, deaf/dumb/blind/physically handicapped persons, old age homes, Cheshire homes, SoS Childrens' Villages, polio homes, cancer and palliative care centers, HIV rehabilitation centers and other similar institutions recognized by the Government

LT - VI (D) Non-Domestic	
Fixed Charge Rs. per kW or part thereof per Month	Nil
Energy Charge (Paise/kWh)	85

The tariff minimum payable shall be

Single phase - Rs. 15 per consumer per month

Three Phase - Rs. 25 per consumer per month

#### LOW TENSION -VII (LT- VII) COMMERCIAL

##### LT VII (A)

Tariff for commercial consumers such as display lights, cinema studios, commercial premises, hotels and restaurants (having connected load exceeding 1000 W), showrooms, business houses, private hostels/lodges/guest/rest houses, freezing plants, cold storages, milk chilling plants, bakeries (without manufacturing process), Audio/video cassette recording/duplication units, CD recording units, self financing educational institutions (including hostels), petrol/diesel/LPG/CNG bunks, Automobile service stations, all construction works, installations of cellular mobile communications/cable TV networks, satellite communications, offices/ exchanges of telecom companies, Offices or institutions of AIR, Doordarshan, radio stations, insurance companies, call centers and marble cutting units.

LT - VII (A) Commercial	
Fixed Charge Rs. per kW or part thereof per Month	Single Phase - 50 Three Phase - 100
Energy Charge (Paise/kWh)	Up to 100 kWh - 545 Upto 200 kWh 605 Upto 300 kWh 675 Upto 500 kWh 730 Above 500 kWh 805

Note:

1. If the agriculture nurseries do sale also in the same premises, the tariff applicable shall be LT VII A if there is no segregation of load for pumping.
2. If the LTVII A consumer opts for segregation of their motor load for pumping and installs separate meters, LT IV tariff shall be applied for pumping and LT VII A tariff shall be applied for other activities in the same premises.

#### LT- VII (B)

Tariff applicable to consumers having connected load not exceeding 1000 Watts of shops/bunks/hotels and restaurants/telephone/fax/email/photocopy booths and internet cafes.

When connected load in the above cited cases exceeds 1000 Watts the consumers shall be charged under LT VII (A). If monthly consumption exceeds 200kWh, entire consumption shall be charged under LT VII (A) tariff.

LT - VII (B) Commercial	
Fixed Charge Rs. per kW or part thereof per Month	30
Energy Charge (Paise/kWh)	Upto 100 kWh 330 Above 100 kWh 520

### LT- VII (C)

Tariff applicable to cinema theatres, circus, Sports/arts clubs or sailing/swimming activities having connected load exceeding 2000 W.

LT - VII (C) Commercial	
Fixed Charges Rs. per kW or part thereof per Month	80
Energy Charge (Paise/kWh)	Upto 1000 kWh 440
	Above 1000 kWh 590

Note:-

If the consumption of consumers under LT VII Commercial (A) or (B) exceeds a particular block, the entire consumption shall be charged under the next block. For example if the consumption exceeds 100 units but does not exceed 200 units, the entire consumption is chargeable at the rates applicable to 200 units block

### LOW TENSION -VIII (LT- VIII) TEMPORARY EXTENSION

Applicable to temporary extension taken from consumers premises

LT - VIII Temporary extensions
Fixed charges per day of Rs.50/kW or part thereof of connected load plus the application fee, testing fee etc.,

## LOW TENSION - I X (LT- I X) PUBLIC LIGHTING

Tariff applicable to various categories of public lighting per lamp. The Lamp/bulb, holder, condenser and choke shall be supplied by the local bodies free of cost for initial installation and periodical replacement.

### COMPOSITE TARIFF

Type of lamp	Watts (W)	Rs./Lamp/Month		
		Burning Hours per day		
		4 hours	6 hours	12 hours
Ordinary	25/40	22	23	27
Ordinary	60	28	29	34
Ordinary	100	30	33	41
Fluorescent Tube	40	32	33	38
Fluorescent Tube	2 x 40	36	40	48
Flood light	1000	94	123	213
Mercury Vapour Lamp	80	44	46	56
Mercury Vapour Lamp	125	47	56	71
Mercury Vapour Lamp	160	53	62	72
Mercury Vapour Lamp	250	64	75	102
Mercury Vapour Lamp	400	82	96	140
Sodium Vapour Lamp	70	42	45	53
Sodium Vapour Lamp	80	44	46	56
Sodium Vapour Lamp	100	45	48	59
Sodium Vapour Lamp	125	47	51	65
Sodium Vapour Lamp	150	52	58	74
Sodium Vapour Lamp	250	64	72	100
CFL Automatic On/OFF CFL	1 x 11	17	18	20
	2 x 11	18	20	21
	4 x 11	21	22	27
	1 x 18	18	18	20
Mercury vapour lamp on semi-high mast only for 12 hours burning/day	3 x 400			755
Sodium vapour lamp on semi-high mast 12 hours burning/day	250			375

1. When public lighting is to be done after extension of lines, the consumers shall pay the cost of the work as per terms and conditions of supply approved by the Commission.
2. In campuses where lines and lights are provided by the consumer, LT metered supply shall be provided at Ps 90/kWh plus fixed charge of Rs.12 per meter per month subject to other conditions regarding the payment of cost of the work.
3. Supply to Light houses when taken from the board's street mains will be charged at appropriate public lighting tariff. Where low tension metered and independent supply is provided, the rate applicable will be 90 paise/kWh plus fixed charge at Rs.12 per meter per month and subject to other conditions regarding payment of cost of the work.
4. Metered supply will be given by the Board in areas where the Board's Low Tension distribution lines exist, for special type of lamps, rates for which are not given in the annexure, provided the lamps are installed and maintained by the local bodies at their cost. The tariff applicable in such cases shall be 90 Ps per unit plus fixed charge at Rs.12 per meter per month, subject to other conditions regarding payment of cost of the work.
5. Separate charges shall not be collected from the consumers towards services charges or meter hire.
6. Electricity duty is not payable for public lighting as per the Kerala Electricity Duty Act, 1963.

**Annexure - A**  
**Differential Pricing Method**

Billing will be the highest of the following

Recorded Maximum Demand between

Normal Time (6.00 hrs - 18 hrs) Or Peak Time (18 hrs- 22 hrs) Or 75% of the Contract Demand

**1. Demand Charge** = Normal Demand Charge + Time of use charge - Incentive

(a) Normal Demand Charge = Billing Demand x Ruling Demand Charge/kVA

(b) Time of use Charge = Demand during peak time in excess of 60% of Demand during normal time x Ruling Demand Charge/ kVA x 0.8 x 4/24

(c) Incentive = Demand during off peak time in excess of 60% of of the Demand during normal time (up to 120% of the Contract Demand) x Ruling Demand Charge/kVA x 0.25 x 8/24.

**2. Excess Demand Charge** = Excess Billing Demand x Demand charge/kVA x 0.5

(only if the recorded Maximum Demand during normal/peak time exceeds the contract demand)

**3.** The recorded Maximum Demand during Off peak hours in excess of 120% of the Contract Demand shall be charged only at the ruling tariff.

Note:- This will be applicable only when the recorded maximum demand during off peak hours exceeds billing demand. Normal ruling tariff only shall be charged for recorded maximum demand in excess of billing demand.

**4. Energy Charge** = Normal energy charge + Time of use charge - Incentive.

(a) Normal Energy Charge = (Normal Consumption + Peak Consumption+ Off peak consumption) x ruling energy charges/unit.

(b) Time of use charge (Only if the consumption during peak period exceeds 10% of energy consumption during the month) = (Peak consumption - 10% of the energy consumption during the month) X Ruling energy charge/unit X 0.80

(c) Incentive (Only if the consumption during Off-peak period exceeds 27.5% of energy consumption during the month) = (Off peak consumption - 27.5% of the total consumption) x ruling energy charges/Unit x 0.35

**5. Total Monthly Charges** = (1) +(2) + (3) + (4).

**6.** In respect of HT/Deemed HT consumers having only one shift during day time and if they shift the working time to off peak time, they will not be eligible for incentive

**7.** (a) The ruling Demand Charge is the normal ruling rate applicable to Billing Demand.

(b) The ruling energy charge is the normal ruling rate applicable to energy

**Annexure - B**  
**Power factor incentive and penalty**

The following incentive and penalty shall be applicable to HT and EHT consumers for power factor improvement

<b>Power factor range</b>	<b>Incentive</b>
Power factor between 0.9 to 1.00	0.15% of energy charges for each 0.01 unit increase in power factor from 0.9
<b>Power factor range</b>	<b>Penalty</b>
Power factor below 0.90	1% energy charge for every 0.01 fall in power factor from 0.90

## ANNEXURE - C

Recommended values of Static capacitor in kVAR for power factor improvements

### A. Induction Motors (LT)

Sl.No.	Total Motor Rating (HP)	KVAR rating of capacitors insisted	Sl.No.	Total Motor Rating (HP)	KVAR rating of capacitors insisted
1	Upto 3	1	8	Above 25 upto 30	10
2	Above 3 upto 5	2	9	Above 30 upto 40	12
3	Above 5 upto 7.5	3	10	Above 40 upto 50	14
4	Above 7.5 upto 10	4	11	Above 50 upto 60	18
5	Above 10 upto 15	5	12	Above 60 upto 80	22
6	Above 15 upto 20	6	13	Above 80 upto 100	25
7	Above 20 upto 25	7.5	14	Above 100 upto 130	35

### B. WELDING TRANSFORMERS (LT)

Sl.No.	Rating of welding trans-formers in KVA	KVAR rating of capacitors insisted	Sl.No.	Rating of welding trans-formers in KVA	KVAR rating of capacitors insisted
1	1	1	16	16	12
2	2	2	17	17	13
3	3	2	18	18	13
4	4	3	19	19	14
5	5	4	20	20	15
6	6	4	21	Above 20 upto 22	16
7	7	5	22	Above 22 upto 24	17.5
8	8	6	23	Above 24 upto 26	18
9	9	7.5	24	Above 26 upto 28	20
10	10	7.5	25	Above 28 upto 30	21
11	11	8	26	Above 30 upto 35	24
12	12	9	27	Above 35 upto 40	27.5
13	13	10	28	Above 40 upto 45	32.5
14	14	10	29	Above 45 upto 50	35
15	15	11
